This guideline outlines how authors should format their poster submissions for the App Inventor Summit. The abstract should be no longer than 300 words. It can include pictures and tables as long as it does not exceed the one page limit. The template font is *Times New Roman*. The title needs to be **centered**, **bolt** and set to 18 pt.

Authors names and affiliation should set to 11pt. There can be as many authors as necessary as long as the abstract is no longer than one page.

The abstract text should be set to 12 pt. Top and bottom margin should be set to be 1; left and right margin should be set to 1.25.
